PROFESSIONAL SUMMARY

Computer Science major with keen attention to detail, concentrating on **Machine Learning** and problem-solving with data. Skilled in **Python** and **C++** programming languages, and adept at developing algorithms and predictive models. Well-versed in using **Linux systems** for computing-intensive applications and system optimization.

EDUCATION

B.Tech in Computer Science SRMIST	2026 Kattantkulathur
---	--------------------------------

High School Certificate Diamond Public Senior Secondary School	2021 Lucknow
--	------------------------

Senior Secondary Certificate St. Francis' College	2019 Lucknow
---	------------------------

PROJECTS

Automated Digital Portrait Pipeline | Python, OpenCV, MediaPipe, NumPy

Engineered a CV pipeline using **Delaunay triangulation** and **Poisson blending** for realistic face-template mapping, implementing face-gating to eliminate artifacts.

Motion: Collaborative Workspace | React, Node.js, Firebase, Google Auth

Built a real-time editor with automated document recovery and optimized **Firebase synchronization** to ensure zero-latency concurrent editing.

Landslide Susceptibility Mapping | Python, Scikit-learn, ML, NumPy

Developed a predictive ML model analyzing topographical data to generate high-fidelity hazard **heatmaps** for disaster preparedness.

OnBoard: Advertising Marketplace | Java, SQL, Full Stack, DBMS

Automated the advertising booking lifecycle from negotiation to contract signing, integrating **secure payments** to improve transaction efficiency.

TECHNICAL SKILLS

Languages | Java, C++, Python, SQL, JavaScript
Frameworks | OpenCV, MediaPipe, React, Node.js, Firebase
Libraries | NumPy, Scikit-learn, Pandas, Matplotlib
Tools & OS | Arch/Fedora Linux, Git, Google Cloud, AWS, Docker

CERTIFICATIONS

Google Cloud Data Analytics (GCP/BigQuery) • **AWS Machine Learning Foundations** (ML Workflows) • **Cisco Networking Basics**
